Beartooth is fully in production

Many thanks to our research customers for their patience during the transition!
The infrastructure hardware refresh is complete. Rebranded as Beartooth, the campus research cluster offers over 500 compute nodes and 1.2 PB of storage and is positioned to accommodate new compute nodes as they are funded.

ARCC now offers GitLab

ARCC is hosting the community edition of GitLab, a widely used collaborative code development environment that aims to "shorten cycle times, reduce costs, strengthen security, and increase developer productivity".   Users may request access to Gitlab through our service portal. Read more at bit.ly/3LMLQ3W or scan the QR code to the left.

You can check out ARCC's Gitlab page here: https://gitlab.arcc.uwyo.edu/

ARCC's new service portal

Last but certainly not least, ARCC's services are offered via a new portal.
This allows ARCC to more easily create and offer services to the research community here at UWyo.
